Purwokerto, Jawa Tengah, Indonesia

A highly motivated undergraduate student currently pursuing a Bachelor's degree in Informatics at UIN Sunan Kalijaga Yogyakarta, with a strong interest in Web Development. Possesses over one year of hands-on experience in building responsive user interfaces using HTML, CSS, and JavaScript. Proficient in modern frameworks such as React.js and experienced with version control tools like Git, along with other supporting development tools. Committed to continuous learning and contributing effectively as part of a development team.

## EDUCATION

### UIN Sunan Kalijaga

Bachelor degree in Informatic Engineering | GPA: 3.67 / 4.00

Yogyakarta

2022 - Present

## PROJECTS

### ZMATH Learning Management System

Fullstack Developer, Private Client

Remote

Sept 2025 – Nov 2025

- Developed a secure authentication and interactive quiz interface that successfully handles 42 active users.
- Implemented periodic quiz snapshots to track user's quiz progress.
- Utilizing Next and Supabase to implement state persistence to ensure quiz's data integrity.
- Collaborated in a 2-person team, engaging in regular client consultations to gather requirements.

### Karangsucu Landing CMS

Frontend Developer, Pondok Pesantren Al-Hidayah Karangsucu

Purwokerto

Jun 2025 – Aug 2025

- Developed user authentication and authorization by leveraging existing backend services.
- Works closely with fellow frontend developers to deliver new features and improve UI components using Git.
- Implemented Atomic Design principles to create a structured and maintainable component system.
- Successfully built a system that supports dozens of active users in managing institutional landing page.

### Burnalyze – Aplikasi Deteksi Luka Bakar

Fullstack Developer, Coding Camp 2025 powered by DBS Foundation

Yogyakarta

Apr 2025 - Jun 2025

- Assisted the frontend team in developing the authentication and detection pages by implementing UI component and integrating them with backend services.
- Collaborated with Machine Learning Engineer team to develop and integrating AI model API.
- Implemented RESTful endpoint to handle user auth and data retrieval.

## ORGANIZATION
